Date: 2 March 2023

To whom it may concern

**General Average on "SAFIR 1"**  
**Fire in cargo hold no.1 on 22 February 2023**

During discharging of cargo at Mundra, India on 22 February 2023, the vessel, laden with around 365 containers remaining on board, experienced a fire in cargo hold no.1 as a result of which both ship and cargo were in peril. Extinguishing operations were commenced for the common safety and the fire was successfully extinguished.

A claim arises in general average, principally for the cost of fire extinguishing operations. We hereby declare general average and have appointed Richards Hogg Lindley as the average adjusters.

Under the circumstances, we should be most grateful if you would let us **URGENTLY** have the GA securities requested by the adjusters prior to taking delivery of the cargo at the discharge port.

Yours faithfully
